

Typhoid conjugate vaccines (TCVs) prevent illness and death from drug-resistant typhoid

CURRENT ANNUAL TYPHOID BURDEN

7 MILLION+ CASES

93,000+ DEATHS

7 MILLION+ DALYs*

WITH TCVs:

Children are protected against typhoid
Drug-resistant typhoid transmission is limited because of vaccines
Global typhoid burden is reduced

Over the next ten years, TCVs have the potential to

AVERT TWO-THIRDS
